**TRASPORTI INTERNAZIONALI**

# Your single partner for ground transport: how you want, where you want, when you want.

Very often companies find it difficult to follow all the processes related to logistics and transport, putting the quality and safety of their business at risk. MTE is your single transport service provider: it helps you outsource all kinds of shipments for your business, supporting you at every stage of the process across Europe.

## We offer solutions suitable for every transport and logistics need, designed to guarantee an efficient, fast and quality service.

Our services are focused on **land transport** specialised in **express shipments**, oversized, exceptional, thermal, dangerous goods (ADR) both on short and long routes within national and European borders.

In order to offer a continuous and safe service, **we make use of the double driver and/or relais**, optimising and improving the quality of the services offered.

Furthermore, thanks to our **qualified staff** we are able to provide **consultancy services** on the management of customs procedures.

Thanks to the know-how and experience gained, we are able to offer the **right solution in every sector**. In recent years, MTE has studied and grounded **ad hoc solutions** for the pharmaceutical, food, automotive and general cargo sectors.

## Services

### STANDARD TRANSPORT

We offer all kinds of national and European transport aimed at achieving the objectives set by the customer for a punctual and efficient Supply Chain.

### EXPRESS TRANSPORT

Safe and reliable service in terms of timing and urgencies, in order to guarantee the best shipment in the shortest possible time.

### DEDICATED TRANSPORT

Personalised service dedicated to the particular needs of the customer, with exclusive transport, even in reduced time slots indicated by the customer.

### EXCEPTIONAL TRANSPORT

A team analyzes the different loading and shipping solutions, routes, permits and everything necessary to be able to carry out even exceptional transport in complete safety, such as oversized goods.

### ADR TRANSPORT

Thanks to the satisfaction of precise technological and organizational requirements, we are able to carry out an accurate planning of every single dangerous goods transport operation in complete safety.

### THERMAL TRANSPORT

We offer a series of solutions suitable for guaranteeing the perfect conservation of perishable products along the entire transport chain, constantly monitoring the temperature of the goods and guaranteeing the right health and quality controls.

### PHARMA TRANSPORT

Drugs and medicines are a precious commodity and it is important to ship them quickly, throughout the national territory, and in complete safety so as not to alter the product. The transport of drugs and pharmacologically active substances requires competence, attention and punctuality.

### GROUPAGE

Complete service aimed at grouping goods in a single pick-up and delivery operation to and from all over Europe, to the full advantage of delivery times and cost-effectiveness of the service.

## Customer Service

Customer experience is critical in determining a company's success. We manage all complaints made by our customers quickly and efficiently, respecting quality standards both in terms of timing and problem solving of the report received. Furthermore, we offer qualified personnel able to support our customers with services aimed at managing procedures for the fulfillment of customs procedures in compliance with current regulations through our customs authorizations and the simplified PSX procedure.
